

HANG-A-PLAN

PLAN FILING SYSTEM

Fast, Easy, Efficient Filing and Storage
of plans, drawings, charts, maps, graphics, large sheets

Quick to File

- Save time and keep sheets in original condition with no rolling, folding or adding strips or holes. Simply group up to 150 sheets together and secure in a Binder
- File twice as fast with patented Quickfile Binders featuring quick release levers and extended sheet guide

Simple to Store

- Add a Binder to any location on a Trolley or Wall Rack without obstruction
- Add or remove a Binder at the same level as the Rack with no extra strain from lifting or pulling a Binder over or under the racking system

Fast to Find

- Save time while working on projects, it is quick to locate an indexed binder on a Trolley or a Wall Rack and flip through the hanging sheets

Easy to Move

- All binders have an ergonomic centred carry handle for balanced lifting
- Trolleys are able to roll and be moved around offices and sites

How the System Works

Loose sheets are grouped together and securely clamped within a Hang-A-Plan Binder for storage on a space saving Trolley or Wall Rack. Each Binder will hold 1 -150 sheets of varying sizes within the full length aluminium clamp. Trolleys and Wall Racks provide clear and easy access to all the stored sheets. It is easy find an indexed binder, flip through the sheets and transport groups of sheets held within the Binders.

Universal Use

- Every Trolley and Wall Rack use a Universal Front Loading System
- All Binders sizes can interchange between all Trolleys and Wall Racks, Trolley needs to be equal or greater in size than the Binder. For example, an A0 trolley can hold A0, A1, A2 Binders and Portfolio

Efficient Storage

- Hang-A-Plan vertical storage can save over 80% on valuable floor space
- More economical to purchase, transport and install compared to flat storage systems
- Customize a perfect storage solution with a range of Trolleys, Wall Rack and Plan Binders

10 Year Guarantee

Every Hang-A-Plan Binder is hand assembled and tested to meet strict quality standards. If any components prove defective under normal use, they will be replaced free of charge.
